Base Library

- 1.14.0 released against Isis 1.14.0
- 1.13.6 fixes #5 Add MessageUtils to normalize messages of exceptions thrown from wrapper factory
- 1.13.5 fixes #4- removes further contract tests (moved to incode-module-unittestsupport)
- 1.13.4 fixes #3 removes contract tests (moved to incode-module-unittestsupport)
- 1.13.3 fixes #2 removes dependency on isisaddons' security module
- 1.13.2 fixes #1 removes EstatioUserRole class.
- 1.13.1 additional classes moved out from estatio/estatio's udo-base module.
- 1.13.0 released against Isis 1.13.0.

Freemarker Document Rendering Library

- 1.14.0 released against Isis 1.14.0
- 1.13.0 released against Isis 1.13.0

StringInterpolator Document Rendering Library

- 1.14.0 released against Isis 1.14.0
- 1.13.1 released against Isis 1.13.0, fixes #1
- 1.13.0 released against Isis 1.13.0

XDocReport Document Rendering Library

- 1.14.0 released against Isis 1.14.0
- 1.13.1 released against Isis 1.13.0, and fixes #1 (use v1.13.1 of isis-module-xdocreport)
- 1.13.0 released against Isis 1.13.0

Docx (MS Word) Library

- 1.14.0 released against Isis 1.14.0
- 1.13.0 released against Isis 1.13.0
- 1.12.0 released against Isis 1.12.0
- 1.11.0 released against Isis 1.11.0
- 1.10.0 released against Isis 1.10.0
- 1.9.0 released against Isis 1.9.0
- 1.8.1 released against Isis 1.8.0, support for generate PDF (fixed).
- 1.8.0 released against Isis 1.8.0, support for generate PDF (nb: this was a bad release, incorrectly referenced -SNAPSHOT version of Isis core).
- 1.7.0 released against Isis 1.7.0
- 1.6.0 re-released as part of isisaddons, with classes under package org.isisaddons.module.docx

Excel Library

- 1.14.2 released against Isis 1.14.0, fixes #21
- 1.14.1 released against Isis 1.14.0, fixes #19
- 1.14.0 released against Isis 1.14.0
- 1.13.6 maximum length for sheets is 31 chars, not 30 chars.
- 1.13.5.1 patch for 1.13.5 (error with #toExcelPivot(···).
- 1.13.5 released against Isis 1.13.0; includes limited support for pivot tables; #17 (remove overloads for #fromExcel() and #toExcel()).

This release is a minor breaking change to the API. To convert the code, use cls.getSimpleName() as the (now mandatory) value of the sheet name.
ensuring that its length does not exceed 30 characters.

- 1.13.1 released against Isis 1.13.0; includes #15 (multiple sheets)
- 1.13.0 released against Isis 1.13.0
- 1.12.0 released against Isis 1.12.0
- 1.11.0 released against Isis 1.11.0
- 1.10.0 released against Isis 1.10.0; includes ExcelFixture
- 1.9.0 released against Isis 1.9.0
- 1.8.0 released against Isis 1.8.0
- 1.7.0 released against Isis 1.7.0
- 1.6.0 re-released as part of isisaddons, with classes under package org.isisaddons.module.excel

Fake Data Library

- 1.14.0 released against Isis 1.14.0
- 1.13.0 released against Isis 1.13.0
- 1.12.0 released against Isis 1.12.0
- 1.11.0 released against Isis 1.11.0
- 1.10.0 released against Isis 1.10.0
- 1.9.0 released against Isis 1.9.0

FixtureSupport Library

- 1.14.0 released against Isis 1.14.0
- 1.13.1 fixes #1 generalizes the DemoData API to use ServiceRegistry2 rather than RepositoryService. Note that **this release is not backwards-compatible** with previous release.
- 1.13.0 released against Isis 1.13.0 (moving some test support functionality out of Estatio for reuse elsewhere)

FreeMarker Library

- 1.14.0 released against Isis 1.14.0
- 1.13.2 released against Isis 1.13.2. Fixes #1 automatic support for JODA dates and time (can be disabled using configuration property)
- 1.13.1 released against Isis 1.13.0. NB: this is a breaking change, with a simpler API.
- 1.13.0 released against Isis 1.13.0

Integration Testing Support Library

- 1.14.0 released against Isis 1.14.0
- 1.13.1 released against Isis 1.13.2, deprecating test utilities, which instead inherit from new Incode fixturesupport module.
- 1.13.0 released against Isis 1.13.0 (moving some test support functionality out of Estatio for reuse elsewhere)

PDFBox Library

- 1.14.0 released against Isis 1.14.0
- 1.13.0 released against Isis 1.13.0

Polymorphic Associations Library

- 1.14.0 released against Isis 1.14.0
- 1.13.0 released against Isis 1.13.0; fixes #1 extend Factory to be able to check before-hand whether a link type is supported
- 1.12.0 released against Isis 1.12.0
- 1.11.0 released against Isis 1.11.0
- 1.10.0 released against Isis 1.10.0
- 1.9.0 released against Isis 1.9.0

Servlet API Library

- 1.14.0 released against Isis 1.14.0
- 1.13.0 released against Isis 1.13.0
- 1.12.0 released against Isis 1.12.0
- 1.11.0 released against Isis 1.11.0
- 1.10.0 released against Isis 1.10.0
- 1.9.0 released against Isis 1.9.0
- 1.8.0 released against Isis 1.8.0

String Interpolator (OGNL) Library

- 1.14.0 released against Isis 1.14.0
- 1.13.0 released against Isis 1.13.0
- 1.12.0 released against Isis 1.12.0
- 1.11.0 released against Isis 1.11.0
- 1.10.0 released against Isis 1.10.0
- 1.9.0 released against Isis 1.9.0
- 1.8.0 released against Isis 1.8.0
- 1.7.0 released against Isis 1.7.0
- 1.6.0 re-released as part of isisaddons, with classes under package org.isisaddons.module.stringinterpolator

Unit Testing Support Library

- 1.14.0 released against Isis 1.14.0
- 1.13.4 fixes #4 new ReflectUtils class.
- 1.13.3 fixes #3 moving assertions and matchers out from Estatio's EstatioIntegrationTestAbstract base class
- 1.13.2 fixes #2 moving further contract tests from incode-module-base into this repo
- 1.13.1 fixes #1 moving contract tests from incode-module-base into this repo
- 1.13.0 released against Isis 1.13.0 (copied from incode-module-base)

XDocReport Library

- 1.14.0 released against Isis 1.14.0
- 1.13.1 released against Isis 1.13.0, fixes #1
- 1.13.0 released against Isis 1.13.0
